Where your heart leads, your giving can follow.

community foundation
Muskegon County

The Community Foundation is home to over 800 charitable funds. You can give today, or plan to leave a gift in the future, in any amount, to any of our existing funds. Or with a gift of $10,000* ($25,000* for scholarships), you can start a named fund of your own! We'll be happy to help you choose the option that's best for you.

Types of Funds

Unrestricted. These powerful funds address the opportunities and challenges within Muskegon County. Each year, our Distribution Committee decides where unrestricted funds would have the largest impact in the community. As the community changes, so will the projects that your fund supports.

Donor Advised. Advised Funds are convenient, flexible tools for individuals, families, businesses, or groups that want to be actively involved in suggesting what community investments are made. Unlike other fund types, Advised Funds are not limited to the typical 4% annual distribution. As long as the $10,000 fund minimum is maintained, you can recommend grants of any size to any qualified, charitable organization - 501(c)(3), schools, churches, or municipalities.

Field of Interest. Support the arts, education, youth, community beautification, health and human services, the environment, or whatever broad areas of interest you choose. Tell us what aspects of the community you care most about, and we'll make grants from your fund to advance work being done in that field.

Designated. These funds support the specific nonprofit organization(s) that you, as the donor, designate. Perhaps your church, school, or another agency has made a significant impact on your life; a Designated Fund will allow you to continue to support these organizations even when you're gone.

Scholarships. With a minimum gift of $25,000, a Scholarship Fund can help support students continuing their education. We'll work with you to establish guidelines for eligibility, or you can leave it to us to determine where your award will fill the greatest community need and make the most impact.

Organization Endowment. These funds are typically started by a nonprofit to build endowment for their own organization. We manage the endowments of more than 100 Muskegon County nonprofits. These organizations receive regular grant distributions from their fund, while saving for the future.

Community Project. These non-endowed funds are created by groups who partner with us for help with administration of a specific program, capital campaign, or other service.

*Build A Fund allows you to start with $500 and "save up" for the fund over a few years.
